## POLITICAL.

The attention of Parliament during the past fortnight has been confined mainly to some three or four subjects, upon which, however, some very keen discussion has taken place. The more important of these have been the Stamp Duties Bill and the Public Instruction Bill in the Legislative Assembly; and the Land Act Amendment Bill in the Legislative Council. The last-named measure has passed through committee of the whole, but the adoption of the report has been deferred for a week, in order that the bill may be printed with the amendments made by the Council. These amendments do not touch the main principles of the bill, and, even if not accepted by the Assembly, are not likely to lead to a dead-lock, such as occurred in 1876. On February 6, the Legislative Council was engaged in a discussion on a motion of Mr. Flood, to the effect that a survey be made, with a view to reclaiming as much as possible of the land in White Bay, adjoining Glebe Island. The object of the hon. member was to lead to the establishment of cattle sale yards at Glebe Island, adjacent to the Abattoirs. The hon. member opened up the subject by alluding to the mode of dealing with the sale and slaughter of cattle and sheep. In the course of the debate a remark was made by Sir John Robertson, which has caused no little comment. The hon. gentleman said he entertained a speculative idea that meat might be slaughtered in and brought here from the interior by the Government in cool railway carriages, and that the Government might be able to sell it at a profit. The hon. member was met by a rejoinder from Mr. Flood, to the effect that a railway line might be brought to the Garden Palace, entering at one end, and going out at the other—and that a great meat cooling establishment might be formed there. He was of opinion that that would be the end of it, for he did not think the edifice would be pulled down. The resolution of Mr. Flood was agreed to. The Legislative Council met on Wednesday last, and had a short sitting, and adjourned until the following week.

The Stamp Duties Bill was further considered in committee of the whole, on Thursday, January 29. Many of the items in the schedule met with a very strenuous opposition, especially the one which relates to the imposition of a tax upon receipts; it was also attempted to exempt building societies from being subject to stamp duties, but the proposal was rejected. The Colonial Treasurer (Mr. Watson) withdrew the second schedule in order that he might re-call it, and bring it forward again in an amended form. On Wednesday, February 4, Mr. Watson brought up and moved a new schedule of duties for receipt stamps, and another schedule for succession duties on real, as well as personal property. The duties on the former are to be paid on receipt given for or on payment of any sum amounting to £2, and not exceeding £10, in respect of any transaction other than a strictly confined sale to the purchase or sale of any goods, wares, or merchandise, 2d.; RICK.—The market is not quite so strong, owing to receipts from Melbourne; inferior dressed table can be obtained at 218 tons, and good samples in proportion, but only for 5 to 10 tons lots. There is a present no quotation for a parcel.

REDD.—Recently prices took an upward turn after the prediction notwithstanding last mail. Coarse Liverpool on the spot has been dealt in at 26 1/2s., and 27 asked; 26 1/2s. paid for sample to arrive. Rick has a show sale, and held for 26 1/2s.; Fine Liverpool may be quoted at 25s., and double stored at 26s.

**TEA.**—Medium and ration congenous in boxes and half-chests were dealt in to some extent, chiefly for export, at prices from 16½ to 18½ per lb. in London. Some kinds of tea are imported and sold at up to 28.3d. duty paid, and prices close freely.

**Tobacco and CIGARS.**—Bright work or gold leaf, as it is commonly termed here, is about the only foreign made

obacco for which there is any sale, as the import business has been well nigh destroyed by the differential duty in favour of colonial produce. Light No. 2 Manila cigars are obtainable at 2s. 6d. to 6s. ; heavy weight are worth 6s. 6d. to 7s.
